How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED.

As a general family remedy for dyspepsia, torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Liver and Bowels.

W. J. McElroy, Macon, Ga.

Paint at the Races.
Perhaps the most remarkable feature at the Derby was the large number of pretty women who were present, and the amount of enamel and paint which they employed to enhance their attractions. If the present fashion of embellishing nature by the adventitious use of rouge and lamplack continues, a new opening for the younger sons will arise, and we may soon hope to behold among us a millionaire whose origin will be due to his having invested our woman-kind with artificial attractions.—London Truth.

A Vacation on a Bicycle.
A school teacher of Yellow Springs, O., will take her summer outing by traveling on a bicycle from her home to Davenport, Ia. The trip will require twenty-five days and she will doubtless create something of a sensation all along the line. A bicycle party would certainly be an enjoyable and an inexpensive way to spend a two weeks' or three weeks' vacation.—New York Recorder.

Fifty Presents of One Kind.
History repeats itself, as everybody knows, in kind if not in manner. Brides used to receive silver jugs, pickle cases and butter knives ad libitum. Now it is tea balls and souvenir spoons that are showered like rice on them, and the other day a bride got by actual count fifty-two cushions among her wedding gifts.—New York Times.

Recent German Political Plays.
Some months after Bismarck's dismissal a historical play called "Der Neue Herr" was performed at Berlin. The subject was the glorification of the young elector of Brandenburg, known to history as the great elector, who, on ascending the throne of his fathers, dismissed his father's wicked minister. Of course nobody could fail to notice the singularly ill chosen historical parallel, but it did not end there. The emperor visited the performance night after night, applauding vociferously, and even went out of his way to confer marks of distinction on author and actors. This episode was in general discreetly passed over by the press at the time; the fruit was not ripe, the cup not yet full. But for all that it wounded the feelings of many who, whatever their party, had retained unsullied the sentiments of chivalrous gentlemen. A more recent attempt to propagate political ideas by means of a stage play, which also found demonstrative patronage from the emperor, was choked at its birth by the apathy of the public, who sat on the half empty benches in disdainful silence amid the boisterous applause of the emperor.—Contemporary Review.

urow Anxious.
The residents of Carversville, Mo., became somewhat alarmed and unusually pious, a few days ago, on discovering that the ore in a zinc mine thereabouts, at a depth of eighty-five feet, proved so hot that it could not be handled without thick gloves. They thought that satan had suddenly changed his abode and moved his heating apparatus unpleasantly near Carversville.—Yankee Blade.

NEVADA SILVER TICKET.

The JOURNAL places the Silver ticket of Nevada at the mast head this morning. Every man on the ticket is absolutely and unequivocally for the free coinage of silver. They are not make-believe silver men, gold bugs masquerading in free coinage garb, but genuine friends of the white metal who will support no man for office from President to Pound-keeper who is not pledged by platform and declaration to the restoration of silver to the place which it occupied as a money metal prior to the Demonetization Act of 1873, which Senator Stewart in the halls of Congress denounced as "the crime of the nineteenth century."

To-day, for the first time in our history, there is a distinctly free coinage party in the State and nation. Heretofore people have been satisfied with the declaration of the individual candidate that he favored free coinage. Partisan prejudice blinded people to such an extent that Republicans and Democrats representing free coinage constituencies were forgiven for upholding gold bug administrations. Here in Nevada the act of our Representative in voting to place an avowed goldite in the Speaker's Chair, though denounced at the time of its occurrence, was condoned before election and the gentleman returned to Congress because prejudice subverted independence and men seemed to prefer party success to State prosperity. Each of the old parties, through its leaders and newspapers, contended in Nevada that it was more favorable to free coinage than the other, while east of the Ohio the leaders and organs of those parties vied with each other in the virulence of their opposition to the remonetization of silver. The people were deceived; both parties were controlled by the gold ring and the voter was given a choice of men, not of principles. Wall street controlled the National Conventions of both parties, and to-day, as four years ago, does not care whether Cleveland or Harrison is chosen President of the United States next November.

President Lincoln said "you might fool all the people some of the time, and some of the people all the time, but you could not fool all the people all the time." The truth of that homely saying is now apparent. All the people were fooled by the politicians on the silver question, some are yet fooled or pretend to be, but the great mass of the voters of the whole country now fully realize that they have been duped and that neither Mr. Harrison nor Mr. Cleveland cares particularly what the opinions of individual members of their parties may be on the free coinage question so long as they vote with the majority on all party measures, and the majority is against the remonetization of silver.

The people, feeling the effect of the scarcity of money and the unprecedented business depression in the agricultural and silver producing States, were led to inquire the cause, and soon ascertained that it was due to the demonetization of about one-half the metallic currency of the world. They readily discovered in the farming States that wheat, cotton, corn and pork followed the fortunes of silver and that the price of those commodities was regulated by the price of silver bullion. In the mining States the fact that their prosperity depends upon the price of silver became so painfully apparent that the people resolved to ignore party and fight together for the silver cause. They organized in Nevada, Colorado, Idaho and Montana, and sent delegates to Omaha who participated in the nomination of a free coinage candidate for President. In Colorado the silver men have endorsed the Omaha nominees, and in Nevada the Silver Leagues have instructed their candidates for electors to vote for them. The Silver men of this State have also candidates in the field for United States Senator, Congressman, Judge of the Supreme Court and Regents of the State University. These are the men to whom the JOURNAL directs attention. They are making a square, manly contest for the interests of the State, ignoring past party affiliations and severing past party ties to make common cause against the hordes of Wall street whether marshaled under the Harrison or the Cleveland banner. They deserve the support of every Nevadan, and they will receive the votes of every citizen who sincerely believes in the free and unlimited coinage of silver. That they will be elected cannot be doubted, save by those who believe that the demand for free coinage is insincere, as their defeat would be heralded as a Wall street victory and as proof that Nevada is not true to its interests and places party sus-

cess above public prosperity. The contest is between the Silver men, the people under the Weaver and free coinage banner, and the Wall street minions and their dupes under Harrison and Cleveland, and no friend of the State will hesitate to enroll on the popular side and cast his vote for the silver champions.

Elmer Jeffrey of Soda Lake, Chardonnay county, is in Reno. Epperson & Griswold have about twenty-five men at work manufacturing soda.
Ice and cake will be served in the room under the Opera House every evening during Fair week by the Y. P. S. C. E. of the Congregational Church. All cordially invited.
W. O. Riddle and George Lovelock Jr. are here on their return from a trip to Douglas county. They say there are a few men, perhaps half a dozen, at Pine Nut. There is very little water in the district at this season of the year.
The State Fair is near at hand. Already the merry-go-round has been placed in position on the square opposite the Convent, and soon the merry lads and lassies will be enjoying the scenery to be seen in "three trips around the world for a nickel."

Senator Stewart delivered one of his characteristically forcible speeches to a large audience in Armory Hall last night and was frequently interrupted by applause. He places the gold bugs in an unfavorable light by exposing them in their true colors.
Judge Webster and Wm. Webster, Jr. returned yesterday from a trip to Pyramid Lake. They report the fishing excellent and they caught a number of trout weighing from five to nine pounds each. They remembered their friends as usual and many are indulging in the luxury of Pyramid lake trout.
H. C. Cutting writes from Candelaria that the Emerald Silver club unanimously adopted resolutions endorsing the nominees of the Winemucca Convention. He says there will be no opposition to the silver candidates in Southern Emeralds and that it will be an easy matter to canvass the vote this Fall.
Mrs. Mary Clement Leavitt will speak this morning at 11 A. M. in Congregational Church, subject "Christian Missionaries as I Have Seen Them all over the Land." Baptist Church at 3 P. M.; subject: "The Conditions of Women in Pagan Lands." Ladies especially invited. M. E. Church at 7:30; subj: "The Ravages of Drink all over the World."

Dr. and Mrs. A. J. Mullen left yesterday after a month's visit to their son, Dr. C. J. Mullen. The Doctor, Sr., in answer to the question "How do you like Reno?" said: "I would be content if the town and surroundings were walled in to prevent my leaving. Never have I been in a more healthful and salubrious climate. The fine mountain air is as grateful to the lungs as champagne to the stomach." The Doctor and Mrs. Mullen will stay the next two months in San Francisco, one month in San Diego, three months in Los Angeles, and then sail for Alaska, and will return to their Missouri home via the Canadian Pacific to Montreal, Quebec and other points of interest in Canada, making a trip of some fifteen months' duration.

TELEGRAPHIC NEWS

Matters of Interest From Home and Abroad.

Cholera News.
New York, September 17.—The following bulletin was issued at the Health Bureau this afternoon: "No new cases or suspected cases appeared in this city since the last bulletin. The total number of deaths is five. The first on September 6th and last on September 13th. Of the three cases heretofore reported as suspicious, in the case of Edward Hoppe a bacteriological examination of the clothing stained with dejects failed to reveal the presence of spirilli cholera Asiatic."
HAMBURG, September 17.—Official statistics for yesterday place the number of new cases at 276 and the deaths at 136. Doctors believe the general situation more favorable to-day.

QUARANTINE, September 17.—Dr. Sanborn, who returned from Lower Quarantine to-night, reports a new case developed on board the Scandia. The patient, who is a woman, has been removed to Swineburne Island. She is very sick with cholera and it is unlikely that she will live through the night.
Bryon received the news of a case of cholera on board the Bohemia. The patient was removed to day from the steamer and taken to Swineburne Island.
P. J. Wall, in charge of the Surf Hotel at Fire Island, sent Dr. Jenkins at 9:20 P. M. the following telegram: "Received from the Board of Health of Islip a notice to vacate the premises within three days, and that they would call on the citizens of the county to stop the landing of baggage. Captain Cochrane, commanding the militia here, says all the steamship baggage received here will be properly protected. We are in every way prepared to give them a warm reception."

Sontag and Evans.
Fresno, September 17.—A special to the Fresno Republican from its correspondent at Sampson Flat is as follows: "Sheriff Hensley has been elected Captain of the party. Officers are now guarding all the trails and expect to capture Evans and Sontag by to-morrow night. The blood found on the corn leaves near Young's was on the side that Sontag ran, and there is no doubt but that he is wounded in the left arm. Evans and Sontag are together and did not separate. They expect to find them at Boulder's mine. The posse will make a determined fight."
VISALIA, September 17.—News was made public that the day before the shooting of the officers a Sampson's Flat by Evans and Sontag they shot a scout named Madison, who was watching them. The bill striking him on the top of the shoulders, causing a flesh wound and cutting his vest and shirt. A detective named Harry Johnson, Madison's partner, is here and gives this information. Jackson leaves for the hills to-morrow morning. Sheriff Kay, having partially recovered from his illness, starts out with a posse in the morning.

Temescal Tin Mines.
Los Angeles, September 17.—Gervais Purcell, manager of the Temescal tin mines, was asked by an Express reporter to-day regarding the report from Riverside that the mines had shut down because of a lack of funds.
"It is true," said Purcell, "that work had been suspended at the mines, I have not, however, been authorized to say what the future proceedings of the company will be, but it is not true that the company is unable to pay any demands against it. There were thirty-five men working in the mines when work stopped on the 15th instant and all claims will be paid in this city by me on Tuesday next. You may say that the future will show that the mines are very valuable property." Purcell declines to say whether work would be resumed or not.

Mrs. Harrison.
LOON LAKE, N. Y., September 17.—It was the most favorable day Mrs. Harrison has experienced since she was stricken down with pleurisy, nearly ten days ago, and the physicians express confidence: this evening of her recovery from those particular complications. They gravely admit, however, that the terrible seeds of consumption are still present and apt to continue a steady inroad on her constitution. The manner in which she has overcome the attendant complications encourages them to the belief that she still has a fighting chance against a more serious malady with which she is afflicted. The report that she has cancer of the stomach is emphatically denied by both Dr. Doughty and Dr. Gardner.

Carson Robbers.
CARSON, Nev., September 17.—An attempt was made to-night by two men to rob George Kitzmeyer's stable of saddles and harness. The robbers were betrayed by a light, which they extinguished when discovered. Kitzmeyer and son fired five shots with shotguns at the retreating robbers in the darkness without effect. This is the fourth robbery here in twenty-four hours.

An Infernal Machine.
New York, September 17.—Chief Inspector Stears at a late hour this afternoon set for reporters at police headquarters and told them that the box containing a veritable, unmistakable infernal machine, ingeniously contrived to kill the Governor or whosoever might open it, was not mailed in the postoffice, but left on a lamp post letter box.

To Confer with the President.
WASHINGTON, September 17.—Secretary John W. Foster will leave here to-night for Loon Lake to confer with the President in regard to the letter of Mayor Grant requesting the President to take some steps to restrict immigration during the cholera epidemic.

Church Notices.
Trinity Church.—Rev. Erasmus Van Doerlin, Rector, fourteenth Sunday after Trinity. Holy communion at 8 A. M. Matins and sermon at 11 A. M. Evensong at 7:30 P. M. This is a free church and is supported by voluntary offerings.
M. E. Church.—This Sabbath we will hold the first quarterly meeting of this Conference year. The Love Feast will commence at 10 A. M., followed by a sermon at 11 o'clock, after which the Sacrament of the Lord's Supper will be administered. In the evening, Mrs. Mary Clement Leavitt, President of the World's W. C. T. U., will speak. All are invited.

Baptist Church.—Preaching at 11 A. M. and 7:30 P. M. Young People's meeting at 8:30 P. M., conducted by Prof. Church of the State University.
Is Life Worth Living?
Depends on the liver. If suffering with indigestion, or troubled with malaria, that tired, worn out feeling, you will consider life worth very little. But when relieved of these by taking Simmons' Liver Regulator you will count life a blessing and keep the Regulator on hand for any sudden attack of biliousness and sick headache. An active liver makes life a delight. Don't forget the Regulator with a red Z.

DIED.
BURNS.—At Verdi, September 17, 1892, the infant daughter of Mr. and Mrs. F. Burns, aged 7 months and 10 days.

Dyspepsia

Makes the lives of many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregular action of the bowels are the more common distressing symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet surely and efficiently, tones the stomach and other organs, regulates the digestion, creates a good appetite, and by the use of the bowels, overcoming the local symptoms removes the system. Headache, the effects of the disease, banishes the headache, and refreshes the tired mind. "I have been troubled with dyspepsia. I had but little appetite, and what I did eat I could not digest. In an hour after eating I would experience a faintness, or tired, all-gone feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being more or less shut up in a room with fresh paint. Last spring I took Hood's Sarsaparilla—three bottles. It did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GEORGE A. PAGE, Watertown, Mass.
